

Facts

Sion

Model EXTENDER

€ 16.000 (\$ 17.620)

excl. 35 kWh battery rental or purchase

250 km (155 miles) Range

50 kW fast charging

Dimensions

length	4,11 m
width	1,79 m
width w. mirror	2,06 m
height	1,68 m
wheelbase	2,45 m
track gauge	1,59 m
weight	1,4 t

viSono

- 7,5m² solar surface
- High-efficiency SunPower cells with 24% efficiency
- 330 individual cells each 3,65W / cell
- Total: 1205 Watt Peak
- Under favorable conditions up to 30 km / day

Seats

- 2+ 3 seats
- Resulting in a bigger and level rear trunk
- All seats fold flat individually
- 45cm shoulder room per seat
- Isofix mountings on all passenger seats

Drive

- 80 kW (109 PS) three-phase asynchronous motor
- 400 V
- Battery: Li-Ion (LiMn₂O₄) - water cooling
- Transmission: one-speed gearbox
- Max. speed 140 km/h

Equipment

- The airbags in front and rear can be switched off
 - ▶ child seat can be positioned upside down
- Electric handbrake integrated in the center console
- Optional tow-bar for trailers weighing up to 750kgs
- KERS (Kinetic Energy Recovery System)
 - ▶ Increased range by regenerative braking
- reSono – the favorable maintenance system
 - ▶ Royalty Free disclosure of the workshop manual and the spare parts (CAD)
- breSono – natural air filter
 - ▶ Special type of moss filters fine dust from the air
 - ▶ Ambient Lightning
- biSono – bidirectional charging
 - ▶ provides charge to other EV's as well as powering / charging of regular appliances
